EDUCATION

Degree/Certificate	Institute/Board	CGPA/Percentage	Year
B.Tech. CSE	Bhimavaram Institution of Engineering and Technology	7.2	2022-26
Senior Secondary	Narayana Junior College	62.3	2020-22
Secondary	St. Mary's High School	71.67	2019

EXPERIENCE

- Intern-Dyashin Technosoft Private Limited**
Bengaluru, Karnataka
- Sept 2026 - Present
- Selected as an Intern at Dyashin Technosoft Private Limited and currently undergoing a four-month offline training program focused on industry-relevant technical skills.
 - Participating in structured technical training, practical assignments, and project-based learning activities under the guidance of an assigned supervisor.
 - Developing programming, problem-solving, and professional skills through hands-on training and practical tasks

PROJECTS

- Multi-Vector Threat Detection Using Machine Learning**
Machine Learning and Cybersecurity
- Dec 2025 – Apr 2026
- Developed a machine learning-based threat detection system capable of identifying spam and phishing URLs, messages through a unified platform and Implemented data preprocessing, TF-IDF feature extraction, and Random Forest classification to provide accurate real-time threat detection and analysis.
 - **Made using:** Python, Flask, Scikit-learn, TF-IDF, Random Forest, SQLite, Pandas, NumPy, Bcrypt
- Customer Churn Prediction Using Machine Learning**
Machine Learning and Data Analytics
- Dec 2025 - Mar 2026
- Developed a machine learning-based customer churn prediction system that analyzes customer demographics, usage patterns, and behavioral data to identify customers at risk of leaving, helping businesses improve retention strategies through data-driven insights.
 - **Made using:** Python, Scikit-learn, Pandas, NumPy, Decision Tree, Random Forest
- Social Media Web Application**
Full Stack Web Development
- May 2025 - July 2025
- Developed a full-stack social media web application and implemented secure user authentication, real-time interactions, and RESTful APIs for efficient data management and smooth user experience.
 - **Made using:** React.js, Node.js, MongoDB
- Personal Portfolio Website**
Web Development
- May 2024 - July 2024
- Designed and developed a personal portfolio website to effectively showcase projects, technical skills, and achievements with a clean, responsive layout and implemented structured navigation and interactive UI elements to improve usability and ensure a seamless user experience across devices.
 - **Made using:** HTML, CSS, JavaScript

TECHNICAL SKILLS

- **Programming:** Java, Python, C
- **Web Development:** HTML, CSS, Bootstrap, JavaScript
- **Machine Learning:** Random Forest, TF-IDF
- **Security & Authentication:** Bcrypt

POSITIONS of Responsibility

- **Project Contributor– Smart India Internal Hackathon**, actively contributed to an AI-based solution
- **Head Coordinator**, Annual Technical Fest -BIET

ACHIEVEMENTS

- **SIH**,1st Place, Smart India Internal Hackathon out of a 500+ candidates.
